

CALL FOR PARTICIPATION

EISIC :IFIP WG8.1 Working Conference on Engineering Information Systems in the Internet Context

Kanazawa, Japan
September 25-27, 2002

<http://ebiz.int-evry.fr/ifip2002-wc>

e-mail: EISIC@univ-paris1.fr

Conference Aims and Objectives

Since the early 1980's, the IFIP WG8.1 conferences have provided a forum for the presentation and exchange of research results and practical experiences in the field of Information System Engineering. The WG8.1 '02 Conference will be held in the beautiful Kanazawa area in North western Japan.

We invite you to participate in the IFIP WG8.1 Working Conference on Engineering Information Systems in the Internet Context (EISIC). In addition to the presentations of the refereed papers, EISIC consists of a tutorial, invited talks, a panel and one workshop.

Conference Theme

The ubiquitous Web has revolutionised the way organisations communicate and work internally as well as externally and, consequently, the nature of information systems supporting business activities. Web-based systems have become the state of the art in information systems engineering in a very short time. As companies become more international in their strategies and activities, information systems themselves span the globe, led by the Internet. While the risks from failed systems may be enhanced due to higher expectations and increased complexity, we have the opportunity to learn more about the nature of information systems and to develop new engineering techniques and methods to improve the development of information services in a World Wide Web context.

The main theme of this working conference is "Engineering Information Systems in the Internet Context" and the programme will address both technologies and methodologies for building them.

Topics to be presented in technical sessions

- Specification & evaluation
- Web application development
- Method engineering
- Markets and service
- Support tools
- Integration

Invited Talk, Tutorial & Panel

Prof. Mikio Aoyama (Nanzan Univ., Japan) as an invited speaker.

Prof. San Murugesan (Southern Cross University, Australia) as a tutorial lecturer : Web-based Information Systems Development

Dr. Sanya Uehara (Fujitsu Ltd.) as a panel organiser
More persons will be announced soon.
